EDUCATION

Bachelor of Engineering, Swaminarayan University
2026 – 2029 | Ahmedabad

Secondary Education, Arpan Vidhyalaya,vastral
Ahmedabad

Higher Secondary Education, SGR public School,Bhadhandar
Sikar

SKILLS

Languages & Frameworks

C++, JavaScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Material UI (MUI)

Databases & Backend

Node.js, Express.js, MongoDB, Mongoose, MySQL, REST APIs, DBMS

Tools & Platforms

Git, GitHub, Postman, Vercel, Netlify, Figma

AI-Assisted Development Tools

ChatGPT, Claude, GitHub Copilot, Gemini, Cursor AI

Core Concepts

Data Structures & Algorithms, Object-Oriented Programming, API Integration

LANGUAGES

- English
- Hindi
- Gujarati

EXPERIENCE

Cinephiles Watch

Tech: JavaScript, Node.js, MongoDB, TMDB API

Developed **Cinephiles Watch**, a modern movie and TV discovery platform that streamlines content discovery through an intuitive and responsive interface. Built reusable components and dynamic layouts to provide seamless movie browsing, search, filtering, watchlists, reviews, and personalized recommendations. Integrated multiple APIs and AI services to support real-time movie information, streaming availability, AI-powered recommendations, movie analysis, and interactive comparison features.

Summary

B.Tech [🔗](#) Computer Science student and Full-Stack Developer skilled in building responsive web applications using React.js, Next.js, Node.js, MongoDB, and REST APIs. Experienced in developing AI-powered and API-driven applications through hackathons and independent projects, with a strong foundation in JavaScript, C++, web development, and modern development tools.

HACKATHON & ACHIEVEMENTS

NaturePulse — International Hackathon Project [🔗](#),

Tech: React.js, JavaScript, Tailwind CSS, REST APIs

Developed **NaturePulse**, a web platform that enables users to identify plants from uploaded images and provides relevant information about the identified plant, including its name, characteristics, and related details. Designed an intuitive interface to make plant identification simple, interactive, and accessible for users.

AI Onboarding Engine — ArtPark CodeForge Hackathon [🔗](#),

Tech: React.js, JavaScript, AI, Tailwind CSS, REST APIs

Built an AI-powered employee onboarding platform that personalizes onboarding workflows based on employee roles and requirements. Developed responsive UI components for onboarding tasks, role-specific learning resources, AI-driven assistance, and progress tracking. Integrated AI capabilities to provide contextual guidance and streamline the onboarding process, helping reduce manual HR effort and improve the overall employee onboarding experience.

PROJECTS

NaturePulse [🔗](#)

Tech: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, REST APIs

Developed **NaturePulse**, an AI-powered web platform designed to strengthen users' connection with nature by providing an interactive and personalized digital experience. The application combines modern web technologies with AI-driven functionality to help users explore, understand, and engage with nature-related information through an intuitive and responsive interface.

Skill sense [🔗](#)

Tech: React.js, JavaScript, Node.js, Tailwind CSS

Developed **SkillSense AI**, an AI-powered learning and skill analysis platform designed to help students evaluate their programming knowledge, identify skill gaps, and track their learning progress. The application provides an interactive assessment system, performance analytics, AI-powered analysis of code and technical concepts, and YouTube learning-content analysis through a responsive and user-friendly interface.

CERTIFICATES

- Tic Tech Toe '26 [🔗](#)
- Craftathon Hackathon [🔗](#)
- ArtPark CodeForge Hackathon [🔗](#)
- FINAGENT Hackathon [🔗](#)
- HackSprint '26 [🔗](#)
- SU Hackathon 2026 – Innovation & Technology(Winners) [🔗](#)
- ElectroSphere 2K26 [🔗](#)
